SUMMARY COMMENTS:

- At their July 2024 meeting, the Board postponed consideration of the proposed bylaws and requested additional information from Administration in relation to the number of parcels that will be subject to the proposed OCP amendment to the Housing Policy.
 - Further, the Board requested that the Appendix 'A' consultation plan be changed to include a mailed notice to all owners of parcels subject to the proposed OCP amendment.
- Parcels subject to the proposed OCP amendment are 12.0 ha and larger and are partially within or not within the ALR.
- The number of parcels that will be subject to Bylaw No. 3321, 2023 is 998. Of that, 752 parcels are Crown Land and 246 parcels are privately owned.

As the requests of the Board are completed, the proposed Bylaws have returned for consideration.

- The applicant has provided a letter responding to comments from the Ministry of Water, Land and Resource Stewardship – Landbase Stewardship. The letter is attached to the report.
 - All referral comments are located in the previous report.
- If additional information or amendments are desired, the bylaw may be held at first reading (Other Decision Options B.).
- If the application is unsuccessful, a third residence would not be permitted. The parcel would remain split-zoned SH and Ru2 zone.

Although the proposal is inconsistent with the OCP's Housing Policies and Zoning Bylaw regulations, it may be reasonable for the Board to consider 1st reading and authorization of the consultation plan to allow for initial input from the public. This input would be forwarded to the Board for their consideration.

Respectfully submitted,

Daniel Burke

Rezoning Application comment

18710 Hughes Road

Prince George, BC

V2N 6S2

After reviewing the comments provided by the Water Stewardship Branch, please accept the following response regarding actions taken during the development of 18710 Hughes Road.

- During the construction of the property, a wastewater professional was consulted and was acquired to design, survey, and install the lagoon which from my understanding meets the setback requirements. I am not a wastewater professional and contracted the professional to complete the work as required.
- During the initial land clearing in 2021, the satellite imagery referenced in the comment that was available on August 1, 2023 shows that vegetation buffers were not maintained.

- Information referenced included the covenant **CA1801389** which states
 - No building, mobile home or unit, modular home or structure, shall be constructed, moved, extended or located within 7.5 meters of the natural boundary of Beverly Creek.

WHEREAS:

The Grantor is the registered owner (the Grantor) of the lands and premises hereinafter described as

The North ½ of District Lot 1879 Cariboo District except Plan 2965

WITNESSETH that in consideration of the premises contained in this agreement and of the sum of One Dollar (\$1.00) and other good and valuable consideration now paid by the Grantee to the Grantors the receipt whereof is hereby acknowledged by the Grantors, the parties agrees as follows:

1. The Grantor is aware of and, on behalf of himself and his heirs, executors, administrators, successors and assigns, hereby acknowledges that there is a potential flood danger to the Lot(s).
 2. The Grantor, on behalf of himself and his heirs, executors, administrators, successors and assigns, hereby covenants and agrees with the First Grantee, as a covenant in favour of the First Grantee pursuant to Section 219 of the *Land Title Act*, it being the intention and agreement of the Grantor that the provisions hereof be annexed to and run with and be a charge upon the Lots, that from and after the date hereof:
 - a. no building, mobile home or unit, modular home or structure, shall be constructed, reconstructed, moved, extended or located within 7.5 metres of the natural boundary of Beverly Creek
 - b. no area used for habitation, business or storage of goods damageable by flood waters, shall be located within any building, mobile home or unit, or modular home or structure at an elevation such that the underside of the floor system or top of concrete slab is less than 1.5 metres above the natural boundary of Beverly Creek
- A title search was completed during the purchasing of the property where **EPP9249** was referenced and showed the natural boundary of Beverly creek to be 238.2 meters from the surveyable point which was 164 meters from the roadway for a total of 402.2 meters from the roadway. This information leads me to believe that the area referenced is not part of the waterway.
 - When made aware of the information during this process, no further alterations to the area has occurred on the property and the area has been

allowed to regrow since early 2022 (a year and a half prior to the re-zoning application).

If further clarification is required, please contact me.

Kind Regards,

Land Owner
