RE: Recycle BC 2025 Depot Onboarding Letter

Laura Zapotichny
General Manager of Environmental Services
Fraser-Fort George Regional District
155 George Street
Prince George, BC V2L 1P8

Via Email

Dear Laura,

Recycle BC has completed its 2025 provincial depot system analysis and has determined that the Regional District of Fraser-Fort George (RDFFG) is eligible for additional depot services in the region.

Recycle BC is a not-for profit organization responsible for residential packaging and paper product recycling throughout British Columbia (BC), servicing close to 2 million households or over 99% of BC through curbside, multi-family and/or depot services. At present there are over 230 depots collecting residential packaging and paper product under the Recycle BC program.

The analysis that has recently concluded reviewed rural and remote, as well as urban communities in BC, and considered factors such as population, the inclusion of other relevant services, distance to a larger service center and distance to an existing Recycle BC depot.

Recycle BC has concluded that the RDFFG is approved for Recycle BC depots in 2025 at the following locations, provided that all program requirements and collection standards are met:

- Vanway Regional Transfer Station, Principal Depot
- McBride Regional Transfer Station, Satellite Depot

Such depots must be staffed, secure during non-operating hours, accept all applicable categories of packaging and paper products, have the capacity to ensure only material from residential sources is collected under the Recycle BC program, and meet all other Recycle BC depot requirements.

RECYCLEBC™

If the RDFFG is interested in adding these locations to its Recycle BC Statement of Work or if you require further information please reach out at your earliest convenience. Note that Recycle BC requires a minimum of 90 days from agreement signature to service commencement. We look forward to hearing from you.

Thank you,

Martin Dickson
Collection Specialist, Collection, Recycle BC
