Subject: Extension of Sno-Cat shed West Lake Estates Road

The Nadsilnich Lake Community association is seeking support and approval in general to extend our Sno-Cat shed to accommodate our complete groomer assembly. Our existing shed will accommodate the Sno-Cat for summer storage but will not accommodate the complete assembly. By extending the shed we can store the complete assembly in winter without having to uncouple it each time. Currently it is stored outside in winter and is subject to the elements. We are applying for a grant through ORV BC to construct this extension. The cost of the project is about \$17,000. If we get funding then we would abide by all of the regulatory requirements (building permit etc.). Attached are a few photos.

Many thanks for your consideration.
