Good morning Kenna,

As per our discussions at the meeting the other night. On behalf of the Summit Lake Community Association, I would request that the Regional District initiate a feasibility study to determine the costs and support for a parking lot to be developed to support island property owners.

We intend to strike a committee of interested property owners to develop a needs assessment which we hope would support the RD in its development of the study. If there is any other information that you need from our organization, please let me know.

Thank you for your consideration of our request.

Mike Millard

President

Summit Lake Community Association
