COMMENTS:

The attachment to this report provides statistics regarding the building activity for the Electoral Areas of the Regional District of Fraser-Fort George. The 2024 and 2025 permit numbers will generally be lower than previous years due to building, plumbing, and heating units being included on one building permit in order to streamline process between the homeowner and Regional District staff.

The total value of all permits for the month of October is \$763,000.

The Village of McBride statistics are included in the Building Permit Statistics attached and are for information purposes only. They are not included in the year-to-date history table. The Village of McBride permit information is not included in the Regional District Statistics above.
