RE: Application to NDIT/Resolution of Support

To the Chair and Directors of the Regional District of Fraser-Fort George:

McBride Big Country Snowmobile Association is an organization that offers snowmobile trails for families and snowmobile enthusiasts of all abilities and ages.

We are applying for Recreation Infrastructure Program grant to replace/repair bridges on the Renshaw trail. The Renshaw is the largest managed snowmobiling area in B.C. and when the trail was closed in Jan 2024 it had a huge negative economic impact on tourism in the community of McBride.

We feel it is necessary to replace the bridges and re-open the Renshaw trail to snowmobilers who inject close to 6 million annually into the local economy. The requested amount for the Renshaw Snowmobile System Revitalization Project is \$156,373.00.

A requirement for the application to NDIT is a resolution of support from the Regional District of Fraser-Fort George.

Thank you for your consideration,

Brenda Mcleod

MBCSA Secretary
